

ECL 290: A Critical Appraisal of *The Dreamt Land*

Winter quarter 2021, CRN: 45604 (1 unit), Day/time: TBD (zoom)

In this seminar we will use the book *The Dreamt Land* by Mark Arax as a starting point to dive deep into the intersections of water, climate change, agriculture, and justice in California. As we read, we will cultivate a list of multimedia resources to develop a reading guide to accompany the widely read book that broadens and diversifies narratives about the Central Valley from a multi-disciplinary perspective.
