COMMUNITY AND CITIZEN SCIENCE IN CONSERVATION

Wednesday 12pm-1pm
Conference Room, 1460 Drew Ave, Davis, CA 95618 (or online via Zoom)

Instructors:
Ryan Meyer (rmmeyer@ucdavis.edu)
Todd Harwell (taharwell@ucdavis.edu)

Course Overview:
This course will involve weekly discussion and exploration of community and citizen science approaches and applications broadly related to conservation.

With an emphasis on recent academic literature, each session will focus on a different topic such as citizen social science, participatory mapping, participatory modeling, documenting conservation benefits, and participatory project structures. Other topics will be identified and explored based on student interest.

*Enrollment capped at 15 students.*
