

*UC Davis and Cornell University Presents:*

## ***The Wild Energy Seminar – ECL 290: Energy and the Environment in Transition***

Fall 2021 (Remote via Zoom), 1 unit  
12:00 - 1:00 PST, Wednesdays

**ECL 290 - CRN #29848**

ENROLL TODAY in this 290 seminar series for both ecologists and energy scientists framed around pressing topics at the interface between energy and the environment.

Engage with impactful research activities on energy and its interaction with Earth's resources and species and how these interactions may link to climate change mitigation, protection of biodiversity, and other socio-ecological goals. Weekly speakers.

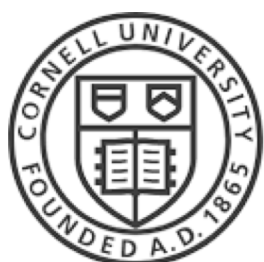

Instructors: Prof. Rebecca R. Hernandez (UCD) and  
Prof. Steven M. Grodsky (USGS & Cornell University)

Speakers include:

- Prof. Dustin Mulvaney (San Jose State),
- Prof. Sarah M. Jordaan (Johns Hopkins),
- Prof. Caitlan Grady (Penn State),
- . . . and more.
